

INVITATION

To ESNO members and European specialist engaged nurses
Brussels 10-12-2019

Dear European specialist nurse..

We like to invite to attend the ESNO congress next year with the theme "The Specialist Nurse in European Healthcare towards 2030". Over the past years we have seen a rapid increase of specialist nurses involvement on many issues because the increase complexity of health and expectation of Health Care Professionals in advanced and specialist position.

Objective is to clarify the role of the Specialist Nurses in Healthcare 2030 by discussing their contribution and position to major health developments! We like to invite you to join discussions and debates from your perspective and expertise with speakers and both European and global nurse leaders and to contribute to health in building the European Specialist Nursing community and network and connect with peers.

As you might realise, the theme is of too greater relevance for one stand-alone event and therefore we will extend this theme for the following years 2020 and 2021.

In the attachment you find our program and speakers overview and more information at our [ESNO CONGRESS WEBSITE](#) or [REGISTER DIRECT](#)

Looking forward meeting you in the centre of Brussels.

Feel free to contact our office for any issues

On behalf of the Congress team

With kind regards

Ber Oomen

Executive Director

ESNO CONGRESS 2019 - Date: 21 February 2019 - Brussels

“The Specialist Nurse in European Healthcare towards 2030”

Objective is to clarify the role of the Specialist Nurses in Healthcare 2030 by discussing their contribution and position to major health developments.

Plenary sessions aim to lay out the developments, opportunities and barriers as these appear today and future in Blending roles and Competencies, Leadership, Interprofessional team work and Innovation. The current confirmed speakers listed below are touching the interchangeability of primary and secondary care, education, the political agenda, digital health and health threats across Europe with an active role for the participants led by two professional moderators.

Because of rapid increasing interest of the specialist and advanced nurses' role in European health, ESNO members has decided and based on advices of partners to change and broaden the original title of the ESNO congress 2019 and proceed on the this, including outcomes for the next three congress to come in 2021 and 2020 in Brussels and same location. The morning focusses on setting the scene with discussions and debates with participants and the afternoon following this with input of ESNO members specific specialties and the way forward.

With your participation you contribute to the future position, role and profession of your position in local, regional, national and European health context.

[Congress venue 'Les Atelier des Tanneurs', Huidevettersstraat 60A, Brussels](#)
